(Sectional view taken along line
A-A in Fig.26B)

A cross-sectional view of a container assembly. A central vertical member, labeled 45a, passes through the container. The container has a main body, labeled 40, with a thick wall, labeled 44. The interior of the container is labeled 40a. A top flange or rim is shown at the top, with a label 45 pointing to its upper surface. The bottom of the container is also shown, with a label 44a pointing to the bottom wall. The container is supported by two vertical supports, labeled 40, which are connected to a top flange or rim, labeled 45. The central member 45a is secured at the top and bottom by components labeled 45a and 44a respectively.
